

## ELECTRIC DRUM HOIST ALTOTIR™

Altotir™ hoists are motorised hoists with a steel cable drum. They allow loads to be lifted. The hoist is installed on a swing jib, which in turn is installed on a scaffold tube. The device is operated by a pushbutton pendant control box with emergency stop.

Model	WLL	Lifting speed (m/min)	Electric motor power (kW/V)	Wire rope diameter (mm)	Wire rope length (m)	Maximum working height (m)	Weight (kg)	Packed dimensions (LxWxH) (mm)
Altotir™ 100	100 kg	15	0.3/230	3	20,5	20	18	300 x 290 x 280
Altotir™ 150	150 kg	18	0.45/230	5	26	25	39	820 x 350 x 500
Altotir™ 200	200 kg	19	0.7/230	5	31	30	45	820 x 350 x 500
Altotir™ 300	300 kg	19	0.88/230	5	26	25	50	820 x 440 x 350
