Product features - Customer benefits

- Instant mounting and positioning on any part of the chain.
- Shortening in either chain direction; up-down.
- Designed to prevent inadvertent chain disengagement.
- Secure mounting with locking set on any desired part of the chain with one chain direction open for shortening.
- Close-open function in both chain directions for safe retention of the chain.
- Can be set idle on the chain leg when shortening is not required.

Note! The MIG must be used with at least one of the locking devices.
